

# Fruits:

Conheça diferentes tipos de frutas.

## **Apple - Maçã**

### **Appearance**

An apple is typically round in shape with a smooth and shiny skin.

**(smooth - lisa/ shiny - brilhante)**

### **Taste:**

Apples have a crisp texture, although this can vary. They are generally juicy and sweet.

**(although - apesar)**

## **Banana - Banana**

### **Appearance**

A banana is typically elongated and curved, with a smooth and thin peel that changes in color from green when unripe to yellow when ripe.

### **Taste:**

Bananas have a sweet and creamy flavor with a little tartness when they are unripe.

**(tartness - acidez)**

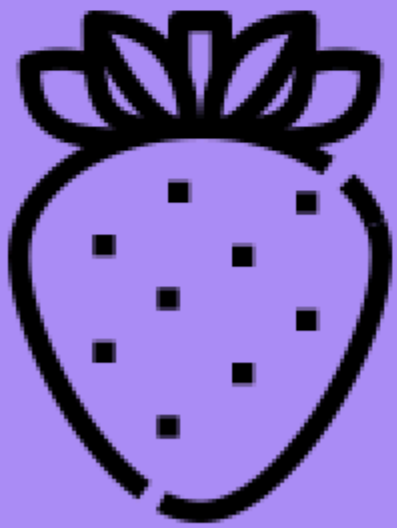

## **Orange - Laranja**

### **Appearance**

An orange is round to oval-shaped and has a thick peel. The color of the peel can be bright orange to yellow-orange, depending on the variety and ripeness. The fruit is segmented into juicy, pulpy sections.

### **Taste**

Oranges have a sweet flavor with a refreshing citrus taste. The pulp is very juicy.

## **Strawberry - Morango**

### **Appearance**

A strawberry is a red, small, heart-shaped fruit. It is covered in tiny seeds.  
**(covered - coberta)**

### **Taste:**

Strawberries have a sweet and slightly tart flavor that is refreshing. The sweetness can vary. The interior is juicy and soft, while the seeds add a subtle crunch.  
**(a subtle crunch - um crocante sutil)**

## **Pineapple - Abacaxi**

### **Appearance**

A pineapple is a large tropical fruit. It has a rough, spiky outer skin that is greenish-yellow.

The fruit is oval to cylindrical. Inside, the fruit is juicy and yellow.

### **Taste**

Pineapples have a sweet and tart flavor with a refreshing tropical taste.

## **Mango - Manga**

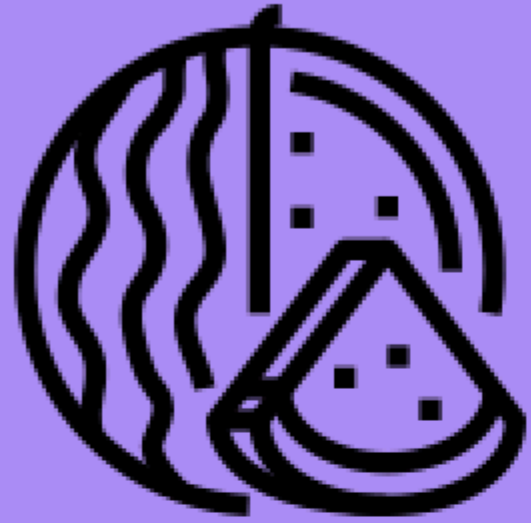

### **Appearance**

A mango is a tropical fruit with an oval to round shape, typically small. The skin of a mango is smooth and thin, changing in color from green to yellow, orange, or red.

### **Taste**

Mangoes have a sweet and juicy flavor with a tropical aroma. Ripe mangoes are generally sweet.

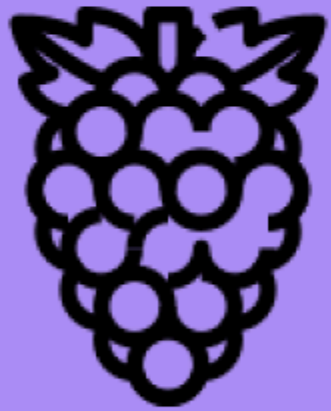

## **Watermelon – Melancia**

### **Appearance**

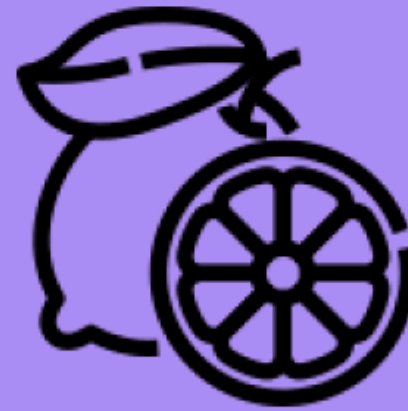

A watermelon is a large, oval fruit with a thick, smooth, and green-striped outer skin. Inside, it is juicy and crisp, typically bright red or pink with black seeds.

### **Taste**

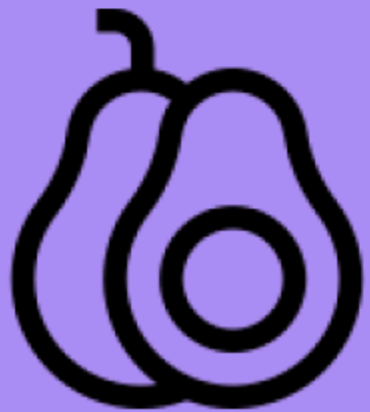

Watermelons have a sweet and refreshing flavor with a high water content that gives them a juicy texture.
